

# Volunteering Pathway

**INTERESTED** - contact the volunteer co-ordinator by phone or email.

**VISIT** - they will arrange an initial visit, find out your interests, tell you something about the organisation and look at areas that might meet both our needs.

**APPLICATION** - fill in an application form and a CRB form.

**VISITS** - whilst these are being processed visit possible placement areas and get to know us a little better.

**START** - when your clearance comes through the volunteer co-ordinator will arrange a mutually convenient start date. You will be given induction support as you begin your placement and an opportunity to meet other volunteers new and old.

**SUPPORT** - ongoing support will be offered to you and the opportunity to avail of in-service training.

**REVIEW** - some feel at home straight away in their area of choice, for others it may take a little time and some may request the opportunity to try a different work area. The organisation is big enough to have a niche for all. The review is an informal opportunity to chat about this.

**DESTINATION** - a mutually enriching experience which meets everyone's needs.
